

# Rainbow Acrylic Distemper

Rainbow Acrylic Distemper is a water-based, interior wall paint. It is most trusted distemper and gives walls a delightful, attractive, matt finish that lasts for ages.

## PRODUCT BENEFITS

Rainbow Acrylic Distemper gives unmatched durability and a smooth finish that has no equal in the distemper category. It is a time-tested formulation with acrylic copolymer binder that gives it this unparalleled performance. Its special formulation ensures shade retention for a long time and its fast drying property facilitates quicker completion of painting jobs. It is available in a unique range of 450 bright, attractive shades that have excellent cleanliness.

## PRODUCT FEATURES

### AVAILABLE PACKS

Shelf life: 3 years from date of manufacture in original tightly closed containers away from direct sunlight and excessive heat.

### COVERAGE

### DRYING TIME TO TOUCH

### WASHABILITY

### MATT FINISH

\*\*Actual coverage may vary from the quoted coverage due to factors such as method and condition of application and surface roughness and porosity.

## HOW TO APPLY

### PRE PAINTING STEPS

**PLASTER** New masonry surfaces must be allowed to cure completely. It is recommended to allow 28 days as the curing time for new masonry surfaces.

**CLEANING** Surface should be free from any loose paint, dust or grease. Growths of fungus, algae or moss should be removed by wire brushing and water. In case of areas having excessive dampness use Appropriate product to limit further dampness.

**FILLING FOR CRACKS** For filling cracks upto 3mm use crack sealant

**FILLING FOR HOLES & DENTS** In case of dents and holes use Rainbow Acrylic Wall Putty or white cement and fine sand in the ratio 1:3

### APPLICATION PROCESS

After application of wall putty and interior primer, sand the wall with emery paper 320 and wipe clean. Mix acrylic distemper with 40-45% water for brush/roller or 50-55% water for spray, apply uniformly and wait for 3-4 hours for recoating. For 2<sup>nd</sup> coat, mix acrylic distemper with 40-45% water for brush/roller or 50-55% water for spray, apply uniformly and wait for 3-4 hours.

## ADDITIONAL INFORMATION

### PRECAUTIONS

- > Do not apply when ambient temperature is less than 10°C or if the temperature might drop to this level within 4 hrs of application.
- > Do not over-thin or over-extend the brush.
- > Stir well and strain before use.
- > Tinted paints need thorough shaking immediately after tinter addition as well as before use.

### SAFETY FEATURES

- > Kindly refer to the MSDS for Rainbow Acrylic Distemper which gives detailed information on safety measures while handling the paint, which is available on request.
- > Store the container with the lid tightly closed in an upright position, in a cool, dry place.
- > Keep out of reach of children and away from eatables.
- > May be harmful if swallowed. In case of ingestion seek immediate medical attention.
- > Wear eye protection during application. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- > In case of skin contact immediately wash skin with soap and plenty of water. Get medical attention if irritation develops or persists.
- > Do not breathe vapour or spray. It is recommended to wear suitable nose pad during sanding and surface preparation to avoid dust inhalation
- > Do not pour leftover paint down the drain or in water courses. In the event of spills, contain spillage using sand or earth.
- > No added Lead, Mercury or Chromium compounds.

### POST PAINTING CARE

For removing stains, sponge clean with a mild soap solution and wipe clean. Ensure a drying time of 2 week from application before cleaning.
